12 hours on the 'Millennium Age' and how organizations most effectively transform to thrive within it

Learn what drives the emerging Millennium Age and the depths that businesses must go to meet Millennium Age demands. Sample the techniques that accurately position any organizations' transformation – moving them from Industrial Age methods and thinking, through the Information Age gateway, into the Millennium Age of:

- ✓ doing high value work with less funding
- ✓ connecting with customers in new more holistic ways
- ✓ bringing to bear untapped human capacity

Tickets are:
\$330
10% off for groups of 3 or more

The Sessions...

Friday June 29 – Evening Only in the Presentation Centre

6:30pm to 7:00pm **Mindfulness at Work Spotlight**
Maintaining a state of mindfulness eases the strain of navigating the sea of unknowns and crystalizes precisely what matters in the moment. A skill that is a essential for transforming environments.

7:00pm to 9:00pm **Principles of the Millennium Age**
Stark contrasts between the Industrial Age norms that most organizations are rooted in, and the Millennium Age mindset that shapes the global future are examined. Humanistic shifts in value and belief systems are required to truly transform - ironically, to make these shifts every organization must acquire certain Information Age capability.

Saturday June 30 in the Presentation Centre

9:30am to 11:30am **The Transformational Organization Paradigm**
Universal characteristics are present in an organization that successfully transforms. In pursuing these characteristics an organization elevates to a continuously transforming mode. Unbound, adaptive, and able to see and access untapped human potential. Thriving in a new normal of societal reorientation toward accelerated experience, and the appreciation of individual purpose and ingenuity.

11:30am to Noon **Digital Presence for Millennials Engagement Spotlight**
A brief on creating a forward focussed digital presence that engages millennials, and what it takes to get digital experience right.

1:30pm to 2:30pm **Shared Wisdom Participant Led Panel Discussion**
Connectedness learning in a quintessentially millennial way! Volunteers form a discussion panel to address questions posed by the audience in this celebration of wisdom exchange.

2:30pm to 4:30pm **Transformational Leadership for Transformation**
Business transformation poses unique leadership circumstances and challenges: moving people through ambiguity; motivating leaps of faith into the unknown; and navigating paradoxes and breakdowns inherent in transformation. Purpose-built leadership techniques that elevate and mobilize people during transformation are experienced.

Feel Good About What Your Ticket Buys!

2% of ticket sales will go to giving organizations close to the hearts of the presenters

Conference Speaker & Organizer

Dr. Linda Miller

Founder of the Transformational Organization Paradigm and the Continuous Transformation Management Framework

iMind Transformation is rooted in the principles of The Transformational Organization Paradigm – a proprietary distillation of scholarly research and hands on experience in transforming organizations to meet the demands of the new millennium business environment. The paradigm defines a new normal for conducting business that triggers a shift away from Industrial Age thinking, to a new ‘age’ oriented in social intelligence, co-creation, and inter-connectedness – referred to as The Millennium Age. iMind Transformation applies the principles of The Transformational Organization Paradigm in its consulting practice and certifies practitioners in the Continuous Transformation Management Framework.
