

### Insurance companies and their senior leaders are navigating challenges associated with...

- Closing decades-long gaps in data management and technology modernization
- Equipping actuarial, accounting, pricing and product management to effectively collaborate
- Building technology and organizational agility into initiative and operation structures

#### Why Engage iMind and Dr. Miller?

- Because big 4 consulting firms are expensive, have limited capacity, and don't work at the on-the-ground level.
- Because MBA programs don't prepare leaders for unceasing radical change happening at escalating speed.
- Because leaders of complex radical change often need week to week support and context-specific strategies and tactics in-flight.

The *IFRS 17 and Beyond Suite* offers the language, strategies, tactics, and auditable documents that support and leverage the success of IFRS 17 transformational change over the development, comparative runs, and compliance time frame – and onward over the following 5 years of radical industry change.

### Supporting Robust Compliance & Orienting for Next-Level Radical Change

#### Dr. Linda Miller Offers

Mastery-level advisory support in the four immediate areas of concern:

- ✓ Technology Capability Maturity
- ✓ Initiative Capability Maturity
- ✓ Business Architecting for Transformation
- ✓ Organizational & Digital Transformation

... and beyond in building the capability to embrace the radical change IFRS 17 sets the stage for.

- ✓ Continuous Transformation Management
- ✓ Organizational Agility
- ✓ Change Intelligence
- ✓ Transformational Leadership
